RATINGS KEY OUTLOOK WATCH

Positive		
Negative		
Evolving		
Stable		

The final rating will be published on Fitch's public website under <https://www.fitchratings.com/entity/canara-bank-80360488>

Fitch Ratings has assigned Canara Bank's (BBB-/Stable) proposed senior unsecured notes an expected rating of 'BBB-(EXP)'. The notes will constitute Canara's direct, unconditional, unsubordinated and unsecured obligations and will at all times rank pari passu among themselves and with all of Canara's other unsubordinated and unsecured obligations.

The final rating is subject to the receipt of final documentation conforming to information already received.

Rating Drivers

The senior unsecured instruments are rated at the same level as the bank's Long-Term Issuer Default Rating (IDR), in line with Fitch's criteria.

Canara's IDR is driven by its Government Support Rating (GSR) of 'bbb-', which is higher than its Viability Rating (VR) of 'bb-'. The GSR reflects our view of a high probability of extraordinary support for the bank from the Indian sovereign (BBB-/Stable), if required. This takes into consideration the state's 63% ownership, the bank's large size and reach, and our assessment of the state's strong propensity to support the banking system in general. The Stable Outlook on the IDR mirrors that on the sovereign IDR.

Rating Sensitivities

Factors that Could, Individually or Collectively, Lead to Negative Rating Action/Downgrade

- A downgrade of Canara's IDR would result in a similar change in the expected rating of the proposed notes.

Factors that Could, Individually or Collectively, Lead to Positive Rating Action/Upgrade

- An upgrade of Canara's IDR would result in a similar change in the expected rating of the proposed notes.

Other Debt and Issuer Ratings: Key Rating Drivers

The senior unsecured long-term ratings (xgs) (EXP) are assigned at the level of the Long-Term IDR (xgs), which is driven by Canara's VR.

Other Debt and Issuer Ratings: Rating Sensitivities

A change in Canara's Long-Term IDR (xgs) would lead to a similar change in its senior unsecured long-term ratings (xgs)

(EXP).

Public Ratings with Credit Linkage to other ratings

Canara's IDRs are directly linked with the sovereign IDRs via the bank's GSR, which reflects our view of the probability of extraordinary state support in the case of need.

In issuing and maintaining its ratings, Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or issuer or obligor in a given jurisdiction.

The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors.

Users of Fitch's ratings should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings can be affected by future events or conditions that were not anticipated at the time a rating was issued or affirmed.

Fitch seeks to continuously improve its ratings criteria and methodologies, and periodically updates the descriptions on its website of its criteria and methodologies for securities of a given type. The criteria and methodology used to determine a rating action are those in effect at the time the rating action is taken, which for public ratings is the date of the related rating action commentary. Each rating action commentary provides information about the criteria and methodology used to arrive at the stated rating, which may differ from the general criteria and methodology for the applicable security type posted on the website at a given time. For this reason, you should always consult the applicable rating action commentary for the most accurate information on the basis of any given public rating.

Ratings are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are

not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only.

RATINGS ARE NOT A RECOMMENDATION OR SUGGESTION, DIRECTLY OR INDIRECTLY, TO YOU OR ANY OTHER PERSON, TO BUY, SELL, MAKE OR HOLD ANY INVESTMENT, LOAN OR SECURITY OR TO UNDERTAKE ANY INVESTMENT STRATEGY WITH RESPECT TO ANY INVESTMENT, LOAN, SECURITY OR ISSUER. Fitch hereby consents to the submission of this letter by investors to the Securities Valuation Office of the National Association of Insurance Commissioners in the United States of America, or to any regulatory authority having jurisdiction over such investors.

The assignment of a rating by Fitch does not constitute consent by Fitch to the use of its name as an expert in connection with any registration statement or other filings under US, UK or any other relevant securities laws. Fitch does not consent to the inclusion of its ratings in any offering document in any instance in which US, UK or any other relevant securities laws require such consent. Fitch monitors its ratings on an ongoing basis. It is important that you promptly provide us with all information that may be material to the ratings so that our ratings continue to be appropriate.
