Selection of Service Provider for Supply,  
Installation, Implementation and Maintenance of  
Enterprise Mobility Management Solution for a period of Three (3) Years in Canara Bank

Sl. No.	RFP Page No.	RFP Section / Annexure /	RFP Clause	Sub-Clause / Technical Specification	Query Description	Bank's Response
13	60	Annexure - 2	Pre-Qualification Criteria	5 - The Bidder should have successfully implemented Enterprise Mobility Management for a minimum of 5,000 users/devices in at least one Scheduled Commercial Bank /BFSI/ PSU/ Government Organization during last three financial years(2020-21, 2021-22 & 2022-2023 ) in India.	Requesting the Bank to amend this clause as below: The Bidder / OEM should have successfully implemented Enterprise Mobility Management for a minimum of 5,000 users/devices in at least one Scheduled Commercial Bank /BFSI/ PSU/ Government Organization during last three financial years(2020-21, 2021-22 & 2022-2023 ) in India.	Bidder to refer the Corrigendum-1
14	67	Annexure - 7	List of Major Customers of the Bidder in Last 3 Years and References	List of Major Customers of the Bidder in Last 3 Years and References	Requesting the Bank to consider the references of Bidder / OEM here	Bidder to refer the Corrigendum-1
15	69	Annexure - 9	1. General	f - As the late sign-off of any solution may impact the Warranty / AMC timelines under back-to back agreements of bidder with OEM, they are advised to take care of the same in their agreements with OEMS. The Bank will not consider any request for adjustments in such cases and will seek full five-year active life of each solution with full OEM support & services.	Kindly clarify the significance of 5 years mentioned here, as the duration of the contract is mentioned as 3 years	Bidder to refer the Corrigendum-1

Selection of Service Provider for Supply,  
Installation, Implementation and Maintenance of  
Enterprise Mobility Management Solution for a period of Three (3) Years in Canara Bank

Sl. No.	RFP Page No.	RFP Section / Annexure /	RFP Clause	Sub-Clause / Technical Specification	Query Description	Bank's Response
16	71	Annexure - 9	2 - Gap Analysis and Customization	a - The bidder, in coordination with OEM should do a gap analysis and submit a detailed study of the Bank's infrastructure and requirements, road map mentioning all the pre-requisites, timeframe of mile-stones/ achievements leading to the full operationalization of the solution vis-à-vis Bank's requirement. The bidder has to develop the project plan, get it approved by the Bank and OEM and then implement the project based on timelines agreed. The Breach of agreed timelines will attract penalties mentioned in Service Level Agreement section of RFP. In Solution design the Security best practices should be taken care of by design team. All Solution's Architecture deployment & configurations done at the Bank should be vetted by OEM /bank authorized third party before Sign-Off from Bank.	Kindly clarify the timelines by which this gap analysis should be performed	The OEM/Bidder has to customise the application as per the requirement of the Bank.
17	72	Annexure - 9	7 - Compliances	b - Data captured in the solution should not be stored outside the Bank's Network.	For SaaS based solution, this clause may not be applicable. Requesting the Bank to therefore remove this clause.	Bidder to refer the Corrigendum-1
18	73	Annexure - 9	9 - Other Requirement	b - The solution should provide Custom Integrations at no additional cost	Kindly provide details of the custom integrations that needs to be supported by the solution	The details shall be shared to the succesful bidder

Selection of Service Provider for Supply,  
Installation, Implementation and Maintenance of  
Enterprise Mobility Management Solution for a period of Three (3) Years in Canara Bank

Sl. No.	RFP Page No.	RFP Section / Annexure /	RFP Clause	Sub-Clause / Technical Specification	Query Description	Bank's Response *
23	79	Annexure - 10	Controls and Policies: EMM should implement granular control with comprehensive per app policies including	13 - Sync and share apps across desktop, mobile and web.	Requesting the Bank to provide more clarity on this clause. Does the Bank need device-based licenses or user based licenses. In device-based license, this will not be available.	The Solution should be able to publish the policy as well as the application on different OS such as Windows, MAC OS, iOS and Android etc.
24	79	Annexure - 10	Controls and Policies: EMM should implement granular control with comprehensive per app policies including	20 - Reporting on app downloads	Requesting the Bank to provide more clarity on this clause. Is the Bank looking for application downloading within the MDM solution. In case if this is outside the MDM solution, this is not recommended under BYOD environment.	The solution should be able to generate the report of the managed applications
25	80	Annexure - 10	Device Management for Mobile Devices	11 - The solution should integrate with Android for work and Apple DEP	Does the Bank have existing Apple DEP and Android work subscription	The details shall be shared to the succesful bidder
26	81	Annexure - 10	Device Management for Mobile Devices	14 - Mobile Application Management solution should allow organizations to enable mobile workforce productivity by managing the lifecycle of securing, distributing, and retiring apps. OEM should offer their own business productivity apps and avoid relying on Third-Party business productivity apps	Requesting the Bank to provide more clarity on this clause	Solution should not be dependent on any of the third party application on application management

Selection of Service Provider for Supply,  
Installation, Implementation and Maintenance of  
Enterprise Mobility Management Solution for a period of Three (3) Years in Canara Bank

Sl. No.	RFP Page No.	RFP Section / Annexure /	RFP Clause	Sub-Clause / Technical Specification	Query Description	Bank's Response
27	81	Annexure - 10	Device Management for Mobile Devices	19 - Mobile Application Management solution should have Corporate E-mail	We understand that the Bank already has its Email Platform (O365). Hence please clarify the clause stating "Mobile Application Management solution should have Corporate E-mail"	The solution should have corporate email application with  a. secure app that brings organization /corporate email, calender, contacts, notes and tasks to the users. b. Email data at rest on the device must be protected with FIPS-certified encryption that is independent of the device to help secure organization / corporate data in the event the device passcode is compromised.
28	83	Annexure - 10	Platform Architecture	1 - Supports Platform - Android, iOS etc. and higher versions, Windows, Linux and MAC	Requesting the Bank to share the usecase for Linux OS support	Bidder to refer the Corrigendum-1
29	84	Annexure - 10	Device Management	7 - Remote troubleshooting of enrolled devices and administration.	Requesting the Bank to provide more clarity on this clause	Bidder should provide remote support to endusers who are enrolled on the proposed solution.
30	84	Annexure - 10	Device Management	13 - Monitor device status such as battery life, memory usage and CPU	Requesting the Bank to consider removing this clause, as monitoring the device status is not the desirable feature of the EMM solution	Solution should have the capability to monitor device health

Sl. No.	RFP Page No.	RFP Section / Annexure /	RFP Clause	Sub-Clause / Technical Specification	Query Description	Bank's Response
31	84	Annexure - 10	Device Management	17 - Solution must support Geo-Fencing of the enrolled devices	Requesting the Bank to provide the usecase for Geo-Fencing. Will providing user's Geo-Location and Geo-Tagging suffice Bank's requirement on this usecase.	The solution should capture the geo-location of the device.
32	85	Annexure - 10	Email Management	3 - Two factor email authentication	Requesting the Bank to provide the usecase for Two-factor email authentication. Does this mean two-step verification using password, face ID, finger print etc when accessing the email application.	Solution should have the capability to authenticate the app using any of the authentication medium such as password, face ID, finger print etc
33	86	Annexure - 10	Content Management	6 - Limit number of downloads for shared content or control content sharing and access	Requesting the Bank to clarify the number of downloads to be considered for this usecase	Solution should have the capability to restrict number of downloads category/group wise as decided by the Bank during implementation.
34	86	Annexure - 10	Self-Service Portal	1 - Provide user self-service portal to manage their own devices and corporate access (GPS, Policy and Security Management, Compliance visibility)	Requesting the Bank to provide more clarity on this clause. Does Bank need the self-service portal for every EMM user.	The solution should have the mechanism for the end users to manage their enrolled devices

Selection of Service Provider for Supply,  
Installation, Implementation and Maintenance of  
Enterprise Mobility Management Solution for a period of Three (3) Years in Canara Bank

Sl. No.	RFP Page No.	RFP Section / Annexure /	RFP Clause	Sub-Clause / Technical Specification	Query Description	Bank's Response
74	78	Annexure-10	Controls and Policies: EMM should implement granular control with comprehensive per app policies including:	In addition to password/PIN based authentication the solution should support integration with 2- Factor systems (Biometric & Mobile OTP)	Are you using only on-prem AD for all apps/ services? Please list if you are using any other directories or identity providers.	Bidder to refer the Corrigendum-1
75	78	Annexure-10	Controls and Policies: EMM should implement granular control with comprehensive per app policies including:	Local data storage control	Through Android's app permission management, we allow/deny/let users decide storage permissions for apps. If this is not what you are expecting, please elaborate and give an example of where this would be useful - this would be helpful to answer this better.	The solution should have the capability to manage the storage of the devices
76	78	Annexure-10	Controls and Policies: EMM should implement granular control with comprehensive per app policies including:	Require AES-256 encryption for all data (including data on SD Card)	By default mobile phones are encrypted when the passcode is set, which can be mandated through configurations, and for laptops Bitlocker and FileVault encryption can be configured. Although mandating encryption for SD card is only possible on Samsung KNOX supported devices, we can block work data from being moved / shared via SD card. Let us know if there is more to this requirement.	Bidder to comply RFP terms. Solution should have the capability for encryption such as bitlocker for windows OS etc.

Selection of Service Provider for Supply,  
Installation, Implementation and Maintenance of  
Enterprise Mobility Management Solution for a period of Three (3) Years in Canara Bank

Sl. No.	RFP Page No.	RFP Section / Annexure /	RFP Clause	Sub-Clause / Technical Specification	Query Description	Bank's Response
77	78	Annexure-10	Controls and Policies: EMM should implement granular control with comprehensive per app policies including:	Sync and share apps across desktop, mobile and web.	It is possible for the MDM to push mobile, desktop and web applications to the respective platforms. But the data sync should be handled by the appropriate applications - for example, O365 / Exchange takes care of syncing the app data. Let us know if there is more to this requirement.	The Solution should be able to publish the policy as well as the application on different OS such as Windows, MAC OS, iOS and Android etc.
78	82	Annexure-10	Device Management for Mobile Devices	Mobile Application Management solution should provide SDK to enable in-house applications to be added in the container.	Adding an app to the work container does not need an SDK, and it can simply to be distributed through the MDM console to the managed devices. Let us know more about what you are trying to achieve.	Bidder has to comply with RFP terms and conditions
79	84	Annexure-10	Device Management	Ability to be a trusted certificate authority for establishing secure and trusted connection between mobile devices and enterprise systems by enabling secure communication, authentication and data protection within EMM Solution.	Please explain this requirement. Do you have an existing CA? What do you mean by enterprise system? Give an example of your requirement	Bidder has to comply with RFP terms and conditions

Selection of Service Provider for Supply,  
Installation, Implementation and Maintenance of  
Enterprise Mobility Management Solution for a period of Three (3) Years in Canara Bank

Sl. No.	RFP Page No.	RFP Section / Annexure /	RFP Clause	Sub-Clause / Technical Specification	Query Description	Bank's Response
80	84	Annexure-10	Compliance	The solution should have comprehensive predefined security configuration assessment checks (settings) for different supported platforms as per industry standards such as ISO27001, PCI-DSS, and OWASP etc.	Please explain more on what you mean by pre-defined security configuration assessment checks? Give examples. There are different restrictions and profiles, which can be configured to achieve different compliance.	Bidder has to comply with RFP terms and conditions
81	85	Annexure-10	Reports and Logging	The Solution should have the capability to integrate with the SIEM solution for logging and monitoring.	Please explain which SIEM you have. And also whether it is possible to use APIs to integrate with the SIEM you are using.	The details shall be shared to the succesful bidder
82	85	Annexure-10	Email Management	Prevent unmanaged / compromised / non-compliant devices from email access	Please explain which email you use? Exchange on-prem or exchange online? Which apps are used in the devices? And what is the authentication used for the email? AD or any other? Can you also let us know how you achieve conditional access right now - is it through Intune Compliance Partnership?	Solution should support O365, Zimbra with the cabablity to develop the integration with others. Solution should support AD authentication as well as local authentication. There should not be any dependency on mailing service provider for conditional access.
83	85	Annexure-10	Email Management	The Solution must have the ability to restrict the public access of Email Solution of the Bank and allow the same only on the managed / enrolled devices. There should not be any licensing dependency from the Email Solution provider to achieve the use case.	Which email solution are you using? What license are you using currently?	Solution should support O365, Zimbra with the cabablity to develop the integration with others. Other details will be shared to selected bidder.
