	K BRANCH AND ATM AT BARARA (HR.)  A" ELECTRICAL WORKS			20th May 2
1	Wiring for light points, Ceiling Fan Points , Call bell points with 2x1.50sqmm PVC insulated copper conductor wire of approved make of 650/1100 volts grade ( Finolex make Flame gard quality) in concealed / exposed PVC Pipe including by 5 Amp modular switches of approved with MS boxes, including making all the connections, including cutting chases and making good the surfaces wherever required.			
	a) One point controlled by one switch. ( as per drgs)	40	points	
	b) Two points controlled by one switch ( Down Lights & Strip type 1x2)	15	points	
2	Wiring for 5Amp light plug points with 2x1.50 sqmm PVC insulated copper conductor wire of 650/1100 volts grade( Finolex make Flame gard quality) with PVC insulated Copper earth wire in concealed / exposed M S Conduit (16 SWG),including 5pin 5Amp Socket with switch (Anchor Roma / MK make) with MS boxes with hylam sheet plate with earthing the third points, including cutting chases and making good the surfaces wherever required.			
a	Light Plug Points in Counter / Wall s	10	points	
b	Light Plug Points for Bracket fans	16	points	
3	Wiring for 16Amp power plug points with 2x2.50 sqmm PVC insulated copper conductor wire of 650/1100 volts grade of approved make with PVC insulated copper earth wire in concealed / exposed PVC Pipe including 6pin 15Amp Modular Socket and switch of approved make with MS boxes with earthing the third points, including cutting chases and making good the surfaces wherever required.			
		10	points	
4	Wiring for light circuit with 2x1.50sqmm PVC insulated copper conductor wire of approved make of 650/1100 volts grade of approved make (Finolex make Flame gard quality) in concealed / exposed PVC Pipe, with PVC insulated copper earth wire ,including making all the connections, including cutting chases making good the surfaces wherever required.			
		15	points	
5	Wiring for power circuit with 2x 4.0 sqmm PVC insulated copper conductor wire of 650/1100 volts grade( Finolex make Flame gard quality) of approved make in concealed / exposed PVC with PVC pipe with insulated copper earth wire ,including making all the connections, including cutting chases and making good the surfaces wherever required.	6	points	
6	Wiring for Air Conditioners points with 4x6 sqmm PVC insulated copper conductor wire of 650/1100 volts grade of approved make with PVC insulated copper earth wire in concealed / exposed PVC Pipe including Concealed Industrial Metallic Socket with 32 Amp TP MCB housed in MS sheet box with PVC insulated Copper earth wire, including cutting chases and making good the surfaces wherever required. (Circuit Shall not be paid extra) Point shall be from DB to Switch / Socket / stablised to indoor /outdoor unit)			
		7	points	

Wiring for Air Conditioners points with 2x6 sqmm PVC insulated copper conductor wire of 650/1100 volts grade of approved make with PVC insulated copper earth wire in concealed / exposed PVC Pipe including Concealed Industrial Metallic Socket with 20 / 32 Amp SP MCB housed in MS sheet box with PVC insulated Copper earth wire, including cutting chases and making good the surfaces wherever required. (Circuit Shall not be paid extra) Point shall be from DB to Switch / Socket / stabliser to indoor /outdoor unit as required	0	points			
Supplying and Installation of TPN MCB type power Distribution board (double door) wall mounted fully recessed in wall indoor cubicle type with dust proof hinged doors complete with inter connections with copper wires, cable glands earthing and painting with  In Coming: 100 Amp TPN ELCB (100mA) = 1 no. Out going: 16-25 Amp SP MCB = 18 nos	1	nos			
Supplying and Installation of TPN MCB type power Distribution board (double door) wall mounted fully recessed in wall indoor cubicle type with dust proof hinged doors complete with inter connections with copper wires, cable glands earthing and painting with	1	nos			
Supplying / Installation testing and commissioning of following fittings and fixtures with proper connections with all material and labour to make the installation complete in all respect with required tubes, bulbs,					
36 W LED light fixture (Recess mounted) High efficiency (Philips make Catalogue / Ref No RC375BLED28S/840PSUW60L60WH	16	nos			
20W LED Batten (Philips make Cat / Ref No. BN028 CLED 20S PSU NW / CDL GR Or Equivalent	10	nos			
Wall Fan: 450 mm sweep, oscillating type, full metal blades and body, copper motor 3-speed pull control, single piece type propeller Wall/Brackets fan (Supply & Fixing) Make: Almonard Tempest II/ Bajaj MK II/ CG Champ Air.	12	nos			
Removing & Refixing of existing / old Ceiling Fan (Crompton make) and P/F					
_	2	nos			
(Philips make cat no.DN172BLED9S-3000PSU WH	20	nos			
300mm dia exhaust fan ( Crompton make ) with all connections with all connections with MS Frame	3	nos			
1200mm dia Ceiling Fan with electronic regulators ( Crompton Make )		nos			
Extra for Providing & Fixing MS Fan Clamp including cutting of RCC and fixing of hook and making good the surfaces	2	nos			
Wiring with 4x10 sqmm PVC insulated copper conductor wire of 650/1100 volts grade of approved make with required earth wire with concealed / PVC Pipe / Conduit including making all the connections, including cutting chases and making good the surfaces wherever required.	30	mtr			
	conductor wire of 650/1100 volts grade of approved make with PVC insulated copper earth wire in concealed / exposed PVC Pipe including Concealed Industrial Metallic Socket with 20 / 32 Amp SP MCB housed in MS sheet box with PVC insulated Copper earth wire, including cutting chases and making good the surfaces wherever required. (Circuit Shall not be paid extra) Point shall be from DB to Switch / Socket / stabliser to indoor /outdoor unit as required  Supplying and Installation of TPN MCB type power Distribution board (double door) wall mounted fully recessed in wall indoor cubicle type with dust proof hinged doors complete with inter connections with copper wires, cable glands earthing and painting with In Coming: 100 Amp TPN ELCB (100mA) = 1 no. Out going: 16-25 Amp SP MCB = 18 nos  Supplying and Installation of TPN MCB type power Distribution board (double door) wall mounted fully recessed in wall indoor cubicle type with dust proof hinged doors complete with inter connections with copper wires, cable glands earthing and painting with  Supplying / Installation testing and commissioning of following fittings and fixtures with proper connections with all material and labour to make the installation complete in all respect with required tubes, bulbs,  36 W LED light fixture (Recess mounted) High efficiency (Philips make Catalogue / Ref No RC375BLED28S/840PSUW60L60WH  20W LED Batten (Philips make Cat / Ref No. BN028 CLED 20S PSU NW / CDL GR Or Equivalent  Wall Fan: 450 mm sweep, oscillating type, full metal blades and body, copper motor 3-speed pull control, single piece type propeller Wall/Brackets fan (Supply & Fixing) Make: Almonard Tempest II/ Bajaj MK II/ CG Champ Air.  Removing & Refixing of existing / old Ceiling Fan (Crompton make) and P/F electronics regulators  12.5 W LED high efficiency recess mounted Circular down light 142mm dia (Philips make cat no.DN172BLED98-3000PSU WH  300mm dia exhaust fan (Crompton make) with all connections with all connections with MS Frame  1200mm dia Ceiling Fan with electr	conductor wire of 650/1100 volts grade of approved make with PVC insulated copper earth wire in concealed / exposed PVC Pipe including Concealed Industrial Metallic Socket with 20 / 32 Amp SP MCB housed in MS sheet box with PVC insulated Copper earth wire, including cutting chases and making good the surfaces wherever required. (Circuit Shall not be paid extra) Point shall be from DB to Switch / Socket / stabliser to indoor /outdoor unit as required  Outdook door ) wall mounted fully recessed in wall indoor cubicle type with dust proof hinged doors complete with inter connections with copper wires, cable glands earthing and painting with In Coming: 100 Amp TPN ELCB (100mA) = 1 no. Out going: 16-25 Amp SP MCB = 18 nos  Supplying and Installation of TPN MCB type power Distribution board (double door) wall mounted fully recessed in wall indoor cubicle type with dust proof hinged doors complete with inter connections with copper wires, cable glands earthing and painting with  Supplying Installation testing and commissioning of following fittings and fixtures with proper connections with all material and labour to make the installation complete in all respect with required tubes, bulbs,  36 W LED light fixture (Recess mounted) High efficiency (Philips make Catalogue / Ref No RC375BLED28S/840PSUW60L60WH  20W LED Batten (Philips make Cat / Ref No. BN028 CLED 20S PSU NW / CDL GR Or Equivalent  Wall Fan: 450 mm sweep, oscillating type, full metal blades and body, copper motor 3-speed pull control, single piece type propeller Wall/Brackets fan (Supply & Fixing) Make: Almonard Tempest II/ Bajai MK II/ CG Champ Air.  Removing & Refixing of existing / old Ceiling Fan (Crompton make) and P/F electronics regulators  12.5 W LED high efficiency recess mounted Circular down light 142mm dia (Philips make cat no.DN172BLED9S-3000PSU WH  200mm dia exhaust fan (Crompton make) with all connections with all connections with MS Frame  3 1200mm dia exhaust fan (Crompton make) with all connections with all connections with MS Frame  3 120	conductor wire of 650/1100 volts grade of approved make with PVC insulated copper earth wire in concealed Vexposed PVC Pipe including Concealed Industrial Metallic Socket with 20/32 Amp SP MCB housed in MS sheet box with PVC insulated Copper earth wire, including cutting chases and making good the surfaces wherever required. (Circuit Shall not be paid extra) Point shall be from DB to Switch / Socket / stabliser to indoor /outdoor unit as required  Supplying and Installation of TPN MCB type power Distribution board (double door) wall mounted fully recessed in wall indoor cubicle type with dust proof hinged doors complete with inter connections with copper wires, cable glands earthing and painting with In Coming: 100 Amp TPN ELCB (100mA) = 1 no. Out going: 16-25 Amp SP MCB = 18 nos  Supplying and Installation of TPN MCB type power Distribution board (double door) wall mounted fully recessed in wall indoor cubicle type with dust proof hinged doors complete with inter connections with copper wires, cable glands earthing and painting with 1 nos  Supplying / Installation testing and commissioning of following fittings and fixtures with proper connections with all material and labour to make the installation complete in all respect with required tubes, bulbs,  36 W LED light fixture (Recess mounted) High efficiency (Philips make Catalogue / Ref No RC375BLED28S/840PSUW60L60WH 16 nos  20W LED Batten (Philips make Cat / Ref No. BN028 CLED 20S PSU NW / CDL GR Or Equivalent 10 nos  Wall Fan : 450 mm sweep , oscillating type, full metal blades and body, copper motor 3-speed pull control , single piece type propeller Wall/Brackets fan (Supply & Fixing) Make: Almonard Tempest IV Baiaj MK IV CG Champ Air. 12 nos  Removing & Refixing of existing / old Ceiling Fan (Crompton make) and P/F electronics regulators  12.5 W LED high efficiency recess mounted Circular down light 142mm dia (Philips make cat no.DN172BLED9S-3000PSU WH 20 nos  300mm dia exhaust fan (Crompton make) with all connections with MS Frame 3 nos  1200mm dia exhaus	conductor wire of 650/1100 volts grade of approved make with PVC insulated copper earth wire in concealed / exposed PVC Pipe including Concealed Industrial Metallic Socket with 20/32 Amp SP MCB housed in MS sheet box with PVC insulated Copper carth wire, including cutting chases and making good the surfaces wherever required. (Circuit Shall not be paid extra) Point shall be from DB to Switch/ Socket / stabliser to indoor /outdoor unit as required  Supplying and Installation of TPN MCB type power Distribution board ( double door) wall mounted fully recessed in wall indoor cubicle type with dust proof hinged doors complete with inter connections with copper wires, cable glands earthing and painting with In Coming: 100 Amp TPN ELCB (100mA) = 1 no. Out going: 16- 25 Amp SP MCB = 18 nos  Supplying and Installation of TPN MCB type power Distribution board ( double door) wall mounted fully recessed in wall indoor cubicle type with dust proof hinged doors complete with inter connections with copper wires, cable glands carthing and painting with  Supplying Installation testing and commissioning of following fittings and fixtures with proper connections with all material and labour to make the installation complete in all respect with required tubes, bulbs,  36 W LED light fixture (Recess mounted) High efficiency ( Philips make Catalogue / Ref No RC375BLED28S/840PSUW60L60WH  16 nos  20W LED Batten ( Philips make Cat / Ref No. BN028 CLED 20S PSU NW /CDL GR Or Equivalent  Wall Fan: 450 mm sween, oscillating type, full metal blades and body. copper motor 3-speed pull control, single piece type propeller Wall/Brackets fan (Supply & Exing) Make: Almonard Tempest IV Baiaj MK IV CG Champ Air.  Removing & Refixing of existing / old Ceiling Fan (Crompton make) and P/F electronics regulators  1.2.5 W LED high efficiency recess mounted Circular down light 142mm dia ( Philips make cat no.DN172BLED9S-3000PSU WH  200mm dia cciling Fan with electronic regulators ( Crompton Make )  Extra for Providing & Fixing MS Fan Clamp including cut	conductor wire of 650/1100 volts grade of approved make with PVC insulated copper earth wire in concealed Cayosed PVC Pipe including Concealed Industrial Metallic Socket with 20 / 32 Amp SP MCB housed in MS sheet box with PVC insulated Copper earth wire. including cutting chases and making good the surfaces wherever required. (Circuit Shall not be paid extra) Point shall be from DB to Switch / Socket / stabiliser to indoor /outdoor unit as required  Supplying and Installation of TPN MCB type power Distribution board ( double door) wall mounted fully recessed in wall indoor cubicle type with dust proof hinged doors complete with inter connections with copper wires, cable glands earthing and painting with In Coming: 100 Amp TPN ELTG (100mA) = 1 no. Out going: 16-25 Amp SP MCB = 18 nos

11	Supply and fixing 1100V grade armored cable having circular shaped aluminum conductor PVC insulated cores, laid up, PVC tape wrapped inner sheathed, GI strip / wire armored and overall extruded PVC sheathed conforming to IS: 1554, laid on wall / ceiling using G I clamps and spacers as per route shown at site in the following sizes with end termination including compressed type brass glands, crimping type copper lugs insulation tape etc as required complete with earthing . (METER TO PANEL BOARD)3.5 x 70 sqmm aluminium armoured cable.				
		20	mtr		
12	Wiring for telephone points with 2 pair of 0.61 mm copper wire with M S Conduit (16 SWG), with RJ-11 Connector with face plate / IO port in suitable modular MS box with all connections	10	points		
13	Wiring for UPS points with 2x1.50 sqmm PVC insulated copper conductor wire of 650/1100 volts grade of approved make with required earth wire with concealed / exposed PVC Pipe / Conduit including making all the connections, including cutting chases and making good the surfaces wherever required. including Supplying & fixing in position Computer Socket Board with 3nos 5Amp 5 pin sockets with switch with 1 no. 15Amp switch (Anchor Roma / MK make) with fuse and light indicator mounted on wooden / PVC board (max. two points on each circuit, Circuit shall not be paid extra)				
		13	points		
14	Wiring with 2x10 sqmm PVC insulated copper conductor wire of 650/1100 volts grade of approved make—with required earth wire with concealed / exposed PVC Pipe / Conduit including making all the connections, including cutting chases and making good the surfaces wherever required.	15	mtr		
15	Wiring with 2x6 sqmm PVC insulated copper conductor wire of 650/1100 volts grade of approved make with required earth wire with concealed / exposed PVC Pipe / Conduit including making all the connections, including cutting chases and making good the surfaces wherever required.				
		15	mtr		
16	Wiring with 4x6 sqmm PVC insulated copper conductor wire of 650/1100 volts grade of approved make with required earth wire with concealed / exposed M S Conduit (16 SWG), including making all the connections, including cutting chases and making good the surfaces wherever required.				
17	Wiring with 2x4 sqmm PVC insulated copper conductor wire of 650/1100	15	mtr		
17	volts grade of approved make with required earth wire with concealed / exposed M S Conduit (16 SWG), including making all the connections, including cutting chases and making good the surfaces wherever required.				
10		15	mtr		
18a	Chemical Earthing using Electrode of size 80 mm dia,  2 meter long connected with 50X6 mm Copper internal strip complete with excavation /borng, civil works, cast iron cover with filling of compound. The voltage between Neutral & Earth not to exceed 2 volts. including bore holes wherever required and putting the earth as per requirement	1	nes		
18b	Wiring with 1x10 sqmm PVC insulated copper conductor wire of 650/1100	1	nos		
	volts grade (Finolex make Flame gaurd quality) as earth wire with concealed / exposed MS Conduit (16 SWG), including making all the connections, including cutting chases and making good the surfaces wherever required.	25	mtr		

		1		
19	Supplying & fixing 63 Amp DP MCB housed in M.S. sheet box with all			
	connections			
		2	nos	
20	Design, Manufacture, Supplying and Commissioning Main LT Panel MS 3' X			
	4'-0"Distribution Board of 1.6mm thick MS sheet fabricated cubicle type			
	with Danger Notice Board indicating sign (DANGER) in English, Hindi,			
	Pinjabi., wall mounted fully recessed / partly recessed with dust proof hinged			
	and lockable doors, brass cable glands for incoming and out going			
	connections with inter connections with copper tapes /wires consists of			
	following:-			
	(i) A cubical having 200 Amps TPN MCCB(Before bus bar) breaking			
	current 20KA, 200 Amps TPN Bus Bar(Copper Tinned), voltmeter,			
	ammeter & Digital power factor meter, three indicators, C.Ts. with			
	selector switches & backup fuses (HRC type)			
	(ii) 200 Amps 4 Pole Heavy duty on load change over switch-1 No.			
	(iii) 63 amps 3 phase and neutral 6 way Lighting D.B. with suitable rated			
	6/10/16 Amps SP MCB-8 Nos(for switch board wiring)., 32/40Amp DP			
	MCB-3 Nos.(1 for ATM UPS i/p, 2 Spare)			
	(iv) 63 Amps 3 phase & neutral 6 way Power DB with suitable rated 32/40			
	Amps DP MCB-9 Nos. (7 for AC ckt 2 spare) 20 Amps SP MCB-10 Nos (8			
	nos for 16A plug point each separate wiring, 1 for glow sign, 1 spare)			
	(v) 63 Amps FP ELCB-1 Nos. for LDB & 63 Amps FP ELCB-1 No. for			
	PDB, ELCB of 30MA having 30 m Sec. Sensitivity (Complete as per			
	technical specifications and including earthing of each Electrical equipments)			
	(vi) LT Panel labeling using aluminium strip for section wise load distribution			
	(Complete as per technical specifications and including earthing of each			
	Electrical equipments)			
		1	nos	
21	Supplying and Installation of MCB type ( UPS- IN COMING DB )		пов	
21	Distribution board (double door) wall mounted fully recessed in wall, sheet			
	metal, powder coated having dust proof and vermin proof gasketed and			
	hinged door with all internals such as DIN rails, neutral- links etc. with all			
	connections with copper wires, cable glands earthing and painting with			
	In Coming: 63 Amp TPN MCB = 1 no. UPS Incomer 40Amp			
	DP MCB = 2 nos. UPS Outgoing 40Amp DP MCB = 2			
	nos.			
		1	nos	
22	Supplying and Installation of MCB type (UPS-DB) Distribution board (			
	double door ) wall mounted fully recessed in wall, sheet metal ,			
	powder coated having dust proof and vermin proof gasketed and hinged			
	door with all internals such as DIN rails, neutral-links etc. with all			
	connections with copper wires, cable glands earthing and painting with			
	In Coming: 40 Amp DP MCB = 1 no. Out going: 10-16 Amp			
	SP MCB = 10 nos.			
	<del> </del>			
		2	nos	
23	Supplying laying and terminating with colour code			
	identification on either ends 20 pair of 0.61 mm annealed tinned screen			
	protected copper conductor PCC sheated telephone cable with PVC Pipe /			
	Conduit			
	Conduit			
		30	Mtr	
24	Providing and fixing of telephone tag block (Krone) of following sizes			
	housed in GI box with cover of suitable size including termination (20 pair			
		1	nos	
25	Supplying & Fixing Call bell (Ding Dong of Anchor make)			
		1	nos	
				•

2.5	D :1: 104 4 1 .: 1 0 T 1 0 104 MT 10 1 0 T 1			1	
26	Providing 18A Analog timer L & T make & one 18A, ML-18, L & T make				
	Contactor. This is to connected in the glow sign board wiring in such a way				
	that timer should control the contactor	1	nos		
27					
	Four Pole ICTP Switch with three Kitkat fuses of 200 A (Before main panel)				
	for receiving 3 Phase & Neutral Supply100 Amps(Main Supply PSEB) To be				
	installed at suitable location(Not to be installed in open space)	1	nos		
-	instance at suitable focation(Not to be instance in open space)	1	1103		
	HAR ELECTRICAL WORKS	TOTAL			
-	"A" ELECTRICAL WORKS	TOTAL			
	"B" DATA CABLING WORKS				
26	Supplying & drawing CAT-6 data Cable ( D-link make) with concealed				
20	2mm thick (ISI approved )PVC pipe (AKG, Setia make), including				
	making all the connections, including cutting chases and making good the				
	surfaces wherever required including Supplying & fixing Surface				
	mounted I.O. Unit ( D-link				
	make) with RJ-45 connector (D Link make)				
		16	points		
27	Supplying & fixing Patch cord of D-link make (1 metre long)	10	nos		
28	Supplying & fixing Patch cord of D-link make ( 2 metre long)	10	nos	-	
29	Removing & Refixing 12 U wall mounted network rack including	1			
	termination of	1	noc		
	all data points.	1	nos		
30	Removing & Refixing RJ 45- 24 Port Jack Panel (D-link make )	1	nos		
31	Removing & Refixing RJ 45- 24 Port Switch (D-link make)	1	nos

33	"C" ATM ELECTRICAL WORKS  Wiring for light points with 2x1.50sqmm PVC insulated copper conductor wire of approved make of 650/1100 volts grade FRLS of Finolex / Polycab / RR Cable make in concealed 2mm thick PVC Pipe of AKG / BEC make including by 6 Amp modular switches of MK / LEGREND / ANCHOR ROMA make with MS boxes with plate , including making all the connections, including cutting chases and making good the surfaces wherever required.  a) One point controlled by one switch.)  b) Two points controlled by one switch.  Wiring for 6Amp light plug points with 2x1.50 sqmm PVC insulated copper conductor wire of 650/1100 volts grade FRLS of Finolex / Polycab/ RR Cable make in concealed 2mm thick PVC Pipe of AKG / BEC make with PVC insulated 1.50 sqmm Copper earth wire of approved make in 2mm thick PVC Pipe of AKG / BEC make including by 6 Amp modular switches and 6Amp Socket with switch of LEGREND / MK / ANCHOR ROMA make with MS boxes with Modular plate with earthing the third points, including cutting chases and making good the surfaces wherever required.	2 2 2			

34	Wiring for 16Amp power plug points with 2x2.50 sqmm PVC insulated copper conductor wire of 650/1100 volts grade FRLS of Finolex / Polycab/ RR Cable make in concealed 2mm thick PVC Pipe of AKG / BEC / GUPTA make with 2.50 sqmm PVC insulated copper earth wire in concealed / exposed PVC Pipe including 6pin 16Amp Socket with switch of MK / LEGREND / ANCHOR ROMA make with MS boxes with MS boxes with modular sheet plate with earthing the third points, including cutting chases and making good the surfaces wherever required.	1	points		
35	Wiring for UPS points with 2x2.50 sqmm PVC insulated copper conductor wire of 650/1100 volts grade of approved make with required earth wire with concealed / exposed PVC Pipe / Conduit including making all the connections, including cutting chases and making good the surfaces wherever required. including Supplying & fixing in position Computer Socket Board with 2nos 16Amp 6 pin sockets with switches (Anchor Roma / MK make) with fuse and light indicator mounted on wooden / PVC board	1	points		
26	Supplying / Installation testing and commissioning of following fittings and	3	points		
36	fixtures with proper connections with all material and labour to make the installation complete in all respect with required tubes, bulbs, lamps etc.				
a.	36 W LED light fixture (Recess mounted ) High efficiency ( Philips make Catalogue / Ref No RC375BLED28S/840PSUW60L60WH	1	nos		
b	12.5 W LED high efficiency recess mounted Circular down light 142mm dia	1	1105		
	( Philips make cat no.DN172BLED9S-3000PSU WH	2	nos		
37	Wiring for Air Conditioners points with 2x6 sqmm PVC insulated copper conductor wire of 650/1100 volts grade of approved make with PVC insulated copper earth wire in concealed / exposed M S Conduit (16 SWG), including Concealed Industrial Metallic Socket with 25 Amp SP MCB housed in MS sheet box with PVC insulated Copper earth wire, including cutting chases and making good the surfaces wherever required. (Circuit Shall not be paid extra) Point shall be from DB to Switch / Socket to indoor /outdoor unit)				
		2	points		
38	Wiring with 2x10 sqmm PVC insulated copper conductor wire of 650/1100 volts grade of approved make with required earth wire with concealed / exposed M S Conduit (16 SWG) including making all the connections, including cutting chases and making good the surfaces wherever required. (Main to DBs)				
		15	mtr		
39	Wiring with 2x6 sqmm PVC insulated copper conductor wire of 650/1100 volts grade of approved make with required earth wire with concealed / exposed M S Conduit (16 SWG), including making all the connections, including cutting chases and making good the surfaces wherever required.  Main to Light DB + UPS outgoing	10			
40	Chemical Earthing using Electrode of size 80 mm dia,	10	mtr		
	2 meter long connected with 50X6 mm Copper internal strip complete with excavation /borng, civil works, cast iron cover with filling of compound. The voltage between Neutral & Earth not to exceed 2 volts. including bore holes wherever required and putting the earth as per requirement				
		1	nos		

41	Wiring with 1x10 sqmm PVC insulated copper conductor wire of 650/1100				
	volts grade ( Finolex make Flame gaurd quality) as earth wire with				
	concealed				
	/ exposed PVC Pipe / Conduit, including making all the connections,				
	including cutting chases and making good the surfaces wherever required.				
		20	mtr		
42	Supplying and Installation of MCB type power Distribution board (				
	double door ) wall mounted fully recessed in wall indoor cubicle type				
	with dust proof hinged doors complete with inter connections with copper				
	wires, cable glands earthing and painting with				
	In Coming: 63 Amp DP MCB = 1 no. Out going: 10-25 Amp SP				
	MCB = 6  nos				
		1	nos		
43	Supplying & fixing 63 Amp DP MCB housed in M.S.				
	sheet box with all connections	2	nos
