11	18	C. DELIVERABLES & SERVICE LEVEL AGREEMENTS (SLAS)	Payment Terms	<p>6.2. Payment schedule for Breach & Attack Simulation Solution will be as under:</p> <p>Payment Stage: ATS for Breach & Attack Simulation Solution</p> <p>% of Payment: Quarterly in Arrears.</p>	Request: Annually in advance	Bidder to Comply with RFP Terms
12	22	C. DELIVERABLES & SERVICE LEVEL AGREEMENTS (SLAS)	Escrow arrangement during Contract period	15.2. The Bidder will place the Source Code (and the procedures necessary to build the source into executable form) along-with flow diagrams and technical write up for the Software, within Thirty (30) days of implementation in escrow with a reputable agency acceptable to both the parties. The modalities of the versions to be kept etc., can be finalized at the time of lodging the software for escrow.	Our proposed solution(software) is propriety and not customized therefore source code cannot be made available.	Bidder to Comply with RFP Terms
13	18	C. DELIVERABLES & SERVICE LEVEL AGREEMENTS (SLAS)	Payment Terms	<p>6.1. Payment schedule for Required Hardware for Breach & Attack Simulation Solution with required OS, Database License and other Licenses will be as under:</p> <p>Payment Stage: Delivery of Required Hardware for Deception solution with required OS, Database License and other Licenses as per clause 1.2.1</p> <p>% of Payment: 40% of the Invoice Value of these Hardware for Breach & Attack Simulation Solution with required OS, Database License and other Licenses</p>	Looks like there is a typo, it has to be corrected to BAS solution and not deception	Kindly Refer Amendment 1.

14	43	<u>Annexure-7</u>	Technical & Functional Requirement of Breach and Attack Simulation Solution	A. TECHNICAL REQUIREMENTS: 1.INFRASTRUCTURE: 1.1. Bidder to provide details of the infrastructure, hardware, software, power supply, storage and connectivity details.	Would the bank provide necessary virtual infrastructure to deploy the sensors and the solution? Or should we include that in the proposal?	Bidder to Comply with RFP Terms
15	45	<u>Annexure-7</u>	Technical & Functional Requirement of Breach and Attack Simulation Solution	Not Available(NA)	How many network zones are in scope? How many sensors need to be deployed, considering one per one network zone?	Details will be shared with the Selected Bidder
16	45	<u>Annexure-7</u>	Technical & Functional Requirement of Breach and Attack Simulation Solution	NA	What SIEM tool is used by the Bank?	Details will be shared with the Selected Bidder
17	45	<u>Annexure-7</u>	Technical & Functional Requirement of Breach and Attack Simulation Solution	NA	What is the ITSM tool used by the bank?	Details will be shared with the Selected Bidder
18	45	<u>Annexure-7</u>	Technical & Functional Requirement of Breach and Attack Simulation Solution	NA	Do bank expect the sensors to be installed on cloud instances? If yes, what cloud platforms are they? (GCP, Azure or AWS)	Please refer functional requirement of the RFP. Bidder has to comply the clause accordingly.
19	NA	NA	NA	NA	Is it mandatory that the solution needs to be on-prem and not a public cloud based one?	Please refer Point no 68 of the FUNCTIONAL REQUIREMENTS for more detail.
20	NA	NA	NA	NA	The key BAS platforms have the ability to encrypt attack traffic over TLS 1.2 or 1.3 to make an attack complex, do you expect the platform to support encryption of TCP attack traffic?	Please refer functional requirement of the RFP.
