Date: 28-06-2022

GENERAL RULES & INSTRUCTIONS TO TENDERERS

Name of the work: Civil & furnishing Works to be carried out at DUMDUM Branch

The rates quoted shall also be inclusive of materials, labour charges, work contract tax, surcharge and all the taxes except GST.

GST WILL BE PAID EXTRA.

The rates quoted by the tenderer shall hold good till the completion of the work from the date of issue of the "WORK ORDER" and no enhancement in the rates are allowed during the period of execution of the work under any circumstances. The rates quoted shall also cover for the work to be executed before and after office hours and also on holidays.

The time stipulated for the completion of the work is 20 days from the date of issue of the WORK ORDER and the work is to be carried out as per the convenience of occupants without disturbing other occupants of the building.

TENDERS:

The entire set of tender paper issued to the tenderer should be submitted fully priced and also signed on the last page together with initials on every page. Initials / signatures will indicate the acceptance of tender papers by the tenderers.

The schedule of quantities shall be filled in as follows:

- The "rate" column to be legibly filled in ink in both English figures and words.
- 'Amount' column to be filled in for each item and the amount for each sub-head as detailed in the "schedule of quantities".
- All corrections to be initialed.
- The "Rate" column for all the items shall be filled up.
- The "Amount" column for the items for which the quantities are not mentioned shall not be filled up.
- In case of any errors / omissions in the quoted rates, the rates mentioned in the tender in words shall be taken as correct rates.

No modifications, over-writings or corrections can be made in the tender papers by the tenderer, but may at his option offer his comment or modifications in a separate sheet of paper attached to the original tender papers.

The Bank reserves the right to reject the lowest or any tender or all of the tenders for each section or to split up and distribute any item of work to any specialist firm or firms, without assigning any reason.

The tenderers should note that tender is strictly on the item rate basis and their attention is drawn to the fact that the rates for each and every item should be correct, workable and self – supporting. If called upon by the bank, detailed analysis of any or all the rates shall be submitted. The architects/bank shall not be bound to accept the contractor's analysis.

The Quantity mentioned in the BOQ is approximate measurements. The works will be paid for as "measured work" on the basis of actual work done and not as "lump sum" contract.

All the items of work described in the schedule of quantities are to be deemed and paid as complete works in all respects and details including preparatory and finishing works involved, directly, related to and reasonably detectable from the drawings, specifications and schedule of quantities and no further extra charges will be allowed in this connection. In the case of lump-sum charges in the tender in respect of an item of works, the payment of such items of work will be made for the actual work done on the basis of lump-sum charges as assessed to be payable by the architects/bank.

The bank has power to add or delete any work or described in specifications or included in schedule of quantities and intimates the same in writing but no addition, omissions or variation shall be made by the contractor without authorization from the bank. No variation shall vitiate the contract. The bank reserves the right to delete any of the items in the tender without assigning any reasons whatsoever.

The tenderer shall note that his tender shall remain open for consideration for a period of 90 days from the date of opening of tender.

AGREEMENT

The successful contractor is required to sign agreement as may be drawn up to suit the local conditions and shall pay for all the stamps and legal expenses incidental thereto. The original will be kept with the Bank and duplicate with contractor.

EARNEST MONEY AND SECURITY DEPOSIT:

There is NO Earnest Money Required to deposite/ submit along with the bids. Retention Money shall be deducted from the final bill at 3% of the gross value of bill. The Retention amount will be refunded to the contractor 15 days after the end of defects liability period provided he has satisfactorily carried out all the work and attended to the entire defect in accordance with the condition of the contract. No interest is allowed on Retention Money.

A part of the Security Deposit if and as decided by the constituent bank can also be furnished in the form of a Bank Guarantee on the bank other than that of the constituent bank.

CONTRACTOR TO PROVIDE EVERYTHING NECESSARY:

The contractor shall provide everything necessary for the proper execution of the work according to the intent and meaning of the drawings, schedule of the quantities and specifications taken together weather the same may or may not be particularly shown or described therein provided that the same can reasonably be inferred there from and if the contractor finds any discrepancies therein he shall immediately and in writing, refer the same to the Architects/Bank whose decision shall be final and binding.

The rates quoted against individual items will be inclusive of everything necessary to complete the said items of works within the contemplation of the contract, and beyond the unit price. No extra payments will be allowed for incidental or contingent labour and/or materials inclusive of all taxes and duties whatsoever except for specific items, if any, stipulated in tender documents

The contractor shall supply, fix and maintain at his own cost, for the execution of any work, all tools, tackles, machineries and equipments and all necessary scaffolding, staging and lighting by night as well as by day required not only for proper execution and protection of the said work.

The contractor shall take down and remove any or all such scaffoldings as occasion shall be required or when ordered to do so, and shall fully reinstate and make good all matters and things disturbed during the execution of work to the satisfaction of architect/bank.

The contractor shall all times give access to workers employed by the bank or any men employed at site and to provide such parties with proper sufficient and if required, special scaffolding and ladder and provide them lighting as may be required to enable such workmen to inspect the work, lay or fix pipes, Civil & furnishing wiring, special fittings etc. The quoted rates of tenderers shall accordingly include all these above-mentioned contingent works.

LIQUIDATED DAMAGES:

Should the work be not completed to the satisfaction of bank within the stipulated period, the contractor shall be bound pay the bank a sum calculated as given below by way of Liquidated Damages after the expiry of completion date

.1.00% of the estimated amount shown in the tender per week subject to a ceiling of 10% of the accepted contract sum.

TIME PERIOD FOR COMPLETION: 20 days from the date of award of work.

FINAL PAYMENTS

The final bill shall be accompanied by a certificate of completion from the Occupant/Bank Officials. Payments of the final bill shall be made after deduction of retention money as specified in clause 9 of these conditions which sums shall be refunded after the completion of the defects liability period after receiving the banks certificate that the contractor has rectified all defects to the satisfaction of the banks. The acceptance of payments of the final bill by the contractor would indicate that he would have no further claims in respect of the work executed.

ESCALATION:

The rates quoted shall be firm throughout the tenure of the contract [including extension of time, if any granted] and will not be subject to any fluctuation due to increase in cost of materials, labour, sales tax, octroietc, unless specifically provided in these documents.

CONTRACTORS EMPLOYEES:

The contractor shall employ technically qualify and competent supervisors for the work who shall be available [by turn] throughout the working hours to receive and comply with the instructions of the bank officials. The contractor shall engage at least one experienced engineer, as site in-charge for the execution of the work the contractor shall employ in connection with the work persons having appropriate skill or ability to perform their job efficiently. The contractor shall employ local labours on the work as far as possible. No laborers below age of 16 and who is not an Indian national shall be employed on the work. Any laborers supplied by the contractor to be engaged on the work on day-work basis either wholly or partly under the direct order or control of bank or its representative shall be deemed to a person employed by the contractor.

The contractor shall comply with provision of all labour legislation including the requirements of

- a. Payments of minimum wages act
- b. Employers liabilities
- c. Workmen's compensation act
- d. Contract labour (regulation and abolition) act, 1970 and central rules 1971
- e. Apprentices act 1961
- f. Any other act or enactment relating thereto and rules framed there under from time to time

The contractor shall keep the bank saved harmless and indemnified against claims if any of the workmen and all costs and expenses as may be incurred by the bank in connection with any claim that may be made by any workmen.

The contractor shall comply at his own cost with the order of requirement of any health officer of state or any local authority or of the bank regarding the maintenance of proper environmental sanitary condition of the area.

The contractor shall arrange to provide first aid treatment to the laborers engaged on the works. He shall within 24 hrs of occurrence of any accident at or about the site or in connection with execution of work, report such accidents to the bank and also the competent authority where such report is required by law.

The contractor shall obtain all Risk Insurance Policy at their cost within 7 days of commencement of work, for the laborers/workmen working at the site including the work till the work is completed. The policy shall be in the joint name of the Bank and contractor and Bank's name shall appear First.

PAYMENTS:

The contractor, in the form prescribed by the bank shall prepare all the bills and submit the same to Bank with measurement of work. Normally one interim bill shall be prepared each month. Bank may release payment within 15 days of receipt of bills/after check measurement, after deduction of retention money, Income Tax etc.The contractor shall have a competent engineer at site for the supervision of the work.

The contractor shall have to make his own arrangements for watch and ward of the work/building, till the work is handed over to the bank.

The decision of the bank will be final and binding with regard to the quality of work is concerned.

The contractor is responsible for procuring the required materials for the work and stores the same at site at his cost and risk.

The amount stated in the interim certificate shall be the 75% of total value of the work executed up to date of the bill, less the amount to be retained by the bank as retention money. If the bank has supplied any materials or goods to the contractors, the cost of such materials will be progressively deducted from the amount due to the contractor on accordance with the quantities consumed in the work. All the interim payments shall be regarded as payments by way of advance against the final payment only and not as payments for works actually done and completed and shall not preclude the requiring of bad, unsound or imperfect or unskilled work to be removed and taken away and reconstructed or re-erected or be considered as an admission of the due performance of the contract or any part there of if any respect or accruing of any claim nor shall it conclude, determine of effect in any way the power if the bank under conditions or any of them add to the final settlement and adjustment of the accounts or otherwise or in any other way or affect the contract.

The contractor shall submit the final bill within one month from the date of completion of the work. A certificate of completion from the bank shall accompany the final bill. The payment of the final bill shall be made after deduction of retention money as specified elsewhere in these documents.

ARBITRATION:

All disputes or differences of any kind whatsoever which shall at any time arise between the parties here to touching or concerning the works or the execution or maintenance thereof of this contract or the rights touching or concerning the works or the execution of maintenance thereof of this contractor or the construction remaining operation or effect thereof or to the rights or liabilities of the parties are arising out of or in relation thereto whether during or after determination foreclosure or branch of the contract[other than those in respect of which the decision of any person is by the contract to the other of them and to the employer hereinafter mention to deal referred for adjudication to a sour arbitrator to be appointed as hereinafter provided.

For the purpose of appointing the sole arbitrator referred to above, the employer will send within 30 days of receipt of the notice, to the contractor a panel of 3 names of persons who shall be presently unconnected with the organization for which the work is executed.

The contractor shall on receipt of the names as aforesaid, select, anyone of the person's name to be appointed as a sole arbitrator and communicate his name to the employer within 30 days of the receipt of the names. The employer shall thereupon without any delay appoint the person as the sole arbitrator. If the contractor fails to communicate such selection as provided above within the period specified, the competent authority shall make the selection and appoint the selected person as the sole arbitrator.

If the employer fails to send to the contractor the panel of 3 names as a foresaid within the period specified, the contractor shall send to the employer a panel of 3 names of persons who shall be unconnected with either party. The employer shall on receipt of the name as a foresaid select anyone of the person's names and appoint him sole arbitrator. If the employer fails to select the person and appoint him as a sole arbitrator within 30 days of the receipt of the panel and inform the contractor accordingly, the contractor shall be entitled to appoint one of the persons from the panel as the sole arbitrator and communicate his name to the employer.

If the arbitrator as appointed is unable or unwilling to act or resigns his appointment or vacates his office due to any reason whatsoever another sole arbitrator shall be appointed as aforesaid.

The work under contract shall, however, continue during arbitration proceedings and payment due or payable to the contractor shall be withheld on account of such proceedings.

The arbitrator shall be deemed to have entered on the reference the data he issued notice to both the parties fixing the date of the first hearing.

The arbitrator may from time to time, with the consent of parties, enlarge the time or making and publishing the award.

The arbitrator shall give a separate award of each disputes or difference referred to him. The arbitrator shall decide each dispute in accordance with the terms of the contract and give a reasonable award. The venue of arbitration shall be such place as may be fixed by the arbitrator in his sole discretion.

The fee, if any, of the arbitrator shall, if required to be paid before the award is made and published, be half and half by each of the parties. The cost of the reference and of the award including the fees, if any, of the arbitrator who may direct to and by whom and in what manner, such costs or any part thereof shall be paid and may fix or settle the amount of costs to be so paid.

The award of the arbitrator shall be final and binding on both the parties.

Subject to aforesaid the provision of the arbitration act 1940 or any statutory modification or reenactment thereof and the rules made there under, and for the time being in force, shall apply to the arbitration proceeding under this clause.

The employer and the contractor hereby also agree that arbitration under the clause shall be a condition precedent to action under the contract with regard to the matters hereby expressly agreed to be so referred to arbitration.

The work to be completed as per specification, drawing and approval of the Architect. No Drop or design (if any) will be considered and erecting lay in type tegular or drop type Modular False Ceiling (ARMSTRONG make - 12 mm. thk) of 600 x 600 mm, grid. The rate shall include the additional cost of Fee and L supports and other accessories near the ends/ odd size edges/corners. Provide additional diverser necessary, making necessary openings for electrical light fittings, alarm detectors and any other fixtures. No extra payment for making openings in the panel/grids for the purpose of light fittings. Item rate shall include all the taxes, transportation, erection, loading and unloading and any other incidental expenditure for completing the work.	
size 45mm (0.9mm thk, with two flanges of 15mm each) from the soffit at 1220mm centres with flanges of 26mm each with lips of 10.5 mm are then fixed to the intermediate channel with the help of connecting clip and in direction perpendicular to the intermediated channel at 457mm centres. 12.5mm tapered edge Gypboard (confirming to IS: 2095 - 1982) is then screw fixed to ceiling section with 25mm drywall screws at 230mm centers. Screw fixing is to be done mechanically either with screw driver or drilling machine with suitable attachment. The boards are to be jointed and and finished so as to have a flush look which includes filling and finishing the tapered and square edges of the boards with jointing compound. No extra payment will be made for the cutting of light points, stain glass, cove lighting etc. The measurement will be taken in one level, rate should include the drops also, no extra amount will be paid for the drops. The joints to be properly mended with paper tapes and gypsum compound. The surface to be finished with two coats of distemper paint of approved shade with two coats of good quality drywall primer all complete. The rate should include the full completion of the ceiling. At the time of handing over the site all necessary repairing work to be considered if require

13	Providing & Fixing fully glazed 12 mm. thk., fixed toughened clear float Glass , with polished edge as directed fitted with wall by ss patch fittings etc. complete as per design & direction.	25.00	sq. ft.	
14	Providing & Fixing frameless fully glazed 12 mm. clear Toughened Glass Door (in one / two shutter) with floor mounted pivotted door spring hinges (similar to Godrej D120) to shutters fitted with patch fittings & floors with plate & screws including cutting holes & mending good with cement mortar. Edge of glass to be polished as directed. Shutter to be fitted with 30 mm. dia. 100 mm. X 600 / 900 mm. long stainless pair of 'C' handles (both inside & outside) with all accessories complete as per design & direction. (Location : Branch)			
A	Shutter size : 900 mm. x 2100 mm. (two shutter) with 100 mm. x 900 mm. long 'C' handles at Main entrance	25.00	sq. ft.	
15	Providing & fixing in position wall / column panelling consisting of 6.0 mm thk. marine grade ply IS:710 with aluminium hat furring channel 22-25 @ 500 mm. both direction. The face of the cladding is to be laminated with 1.0 mm. thk. laminate of approved shade & groove design. The ply surface of the groove is to be melamine polish finished of approved colour. The item is to be completed in all respects as per design & approval of the architect.	200	sq. ft.	

1 Fabricated out of marine grade ply (IS-710) with 1 mm terminate including locks, hinges and handles, Encasement will be having lower and 6mm thk. Glass for seeing the indicator in both shutters. The exposed softace of 19mm block board will be finished with TW while cased ring plong with natural polish and inside of the encasement shall be finished with enamel paint. The item is to be completed in all respects as per design, specification and approval of the Architect. 50.00 sq. ft. 16 Providing & fixing Rolling Shutters Encasement with 3mm thick (0.5mm + 2 mm + 0.5mm) ACP in approved colours all complete with approved aluminum sub structure, aluminium brackets, silicon sealants, gaakets, PUDF coating in approved colour etc. all complete including bird/ vermin proof closer at the bottom and flashing at top, complete as per instructions & drawings. 50.00 sq. ft. 17 Providing & fixing writing ledge 900 mm. long x 300 mm. wide x 150 mm. deep, as per design made out of 19mm BWP block board with necessary groove patterns 1.0mm vide (Mac/Annums) of approved shade and pattern heving handail med of high strengt haluminium alows of 100 mm wide (Mac/Annums) of approved shade and pattern heving handail made of high strengt haluminium alows of 100 mm wide (Mac/Annums) of approved shade and pattern heving handail made of high strengt haluminium alows for toal theorem and about the constructive arrangements frames to be provided. The work to be completed apper specification and approval of the Architect. 1 unit 160.00 sq. ft. 160.00	16	Providing and fixing Main Panel Encasement in position			
including locks, hinges and handles, Encasement will be having locuver and 6mm ths. Glass for seeing the indicator in both shutters. The exposed sorface of 19mm block board will be finished with two while cader lipping with natural polish and inside of the encasement shall be finished with enamel paint. The item is to be completed in all respects as per design, specification and approval of the Architect. 50.00 sg. ft. 16 Providing & fixing Rolling Shutters Encasement with 3mm thick (0.5mm + 2 mm + 0.5mm) ACP in approved colours all complete with approved aluminium sub structure, aluminium brackets, silicon sealants, gaakets, PUDF coating in approved colours all complete including bird/ vermi proof closer at the bottom and flashing at top, complete as per instructions & 50.00 sg. ft. 17 Providing & fixing writing ledge 900 mm. long x 300 mm. wide x 150 mm. deep, as per design made out of 19mm BWP block board to be provided. White beach / white cader saper design and approval of the architect. 1 unit 18 Providing & fixing verting ledge to be enamel painted. Top of ledge will be of 12 mm. thk. float glass. The work to be completed as per design and approval of the architect. 1 unit 18 Providing A fixing Droved shade and pattern having handail made of high strength alluminum alloyed will hickness of 1.2 mm thk handrail to have 25mm decorative insert. Control unit shall be of defin. The runners are also to be a defin withamade of high strength alluminum sloved (400 x 600 x 1.5 mm, maker). Spacers should be made of stainless steel. Febric should be made apper specification and approval of the architect. 180.00 sg. ft.		fabricated out of marine grade ply (IS-710) with 1 mm laminate			
having lower and firm thk. Glass for seeing the indicator in both shuttes. The exposed sortaxe of 19mm block board will be finished with TW / white ceader lipping with natural polish and inside of the accessement shall be finished with enamel paint. The item is to be completed in all respect as per design, specification and approval of the Architect. 50.00 sq. ft. 16 Providing & Kiing Rolling Shutters Encasement with 3mm thick (0.5mm + 2 mm + 0.5mm) ACP in approved colours all complete with approved aluminium sub structure. aluminium brackets, silicon seatants, gaskets, PVDF coating in approved colours all complete including bird / vermin prof oloser at the bottom and flashing at top, complete as per instructions & farwings. 50.00 sq. ft. 17 Providing & Kixing writing ledge 900 mm. long x 300 mm. wide x 150 mm. deep, as per design made out of 19mm BWP block board with necessary groove patterns 1.0mm laminate. A divider made of 19mm block board to be provided. White beach / white ceades and approval of the architect. 1 unit 18 Providing and fixing vertical blinds of 100 mm wide (MacAnnums) of approved shade and pattern having handail made of high strength alluminium alloyed with thickness of 1.2 mm thk handrail to have 25mm decorative insert. Control unit shall be of derin. The runners are also to be a deriin mexistone & solters also to be a deriin mexistone & solterspalancy. The rate shall include necessary scoot gurd treatment no both sides. The overlaping should be uniform and adequate. Necessary operative arrangements frames to be provided. The work to be completed as per design specification and approved of the architect. 100.00 sq. ft. 19 Providing an					
both shutters. The exposed sorface of 19mm block board will be finished with TW / white cader lipping with natural polish and inside of the encasement shall be finished with enamel paint. The item is to be completed in all respect as per design, specification and approval of the Architect. 50.00 sq. ft. 16 Providing & fixing Rolling Shutters Encasement with 3mm thick (0.5mm + 2 mm + 0.5mm) ACP in approved colours all complete with approved aluminium sub structure, aluminium brackets, silicon sequalatis, gaskets, PVDF coating in approved colour etc. all complete including bird/ vermin proof closer at the bottom and flashing at top, complete as per instructions & drawings. 50.00 sq. ft. 17 Providing & fixing writing ledge 900 mm. long x 300 mm. wide x 150 mm. deep, as per design made out of 19mm BWP block board with necessary groove patterns 1.0mm laminate. A divider made of 19mm block board to be provided. White beach / white ceader lipping with natural polish to be used in all exposed areas, inside of writing ledge to be enamel painted. Top of ledge will be of 12 mm. thk, float glass. The work to be completed as per design and approval of the architect. 1 unit 18 Providing and fixing vertical blinds of 100 mm wide (MacAnnums) of approved shade and pattern having handail made of high strength aluminium alloyed will hickness of 1.2 mm thk handrail to have 25mm decorative insert. Control unit shall be of derlin. The runners are also to be a derlin withantiliktion adeshive. Spacers should be made of stainless steel. Febric should be polyester viscosted/op/bystery arm having protective coating with chemicals for stain resistance & soilrepalancy. The rate shall include necessary looking arangement & should have a glass panet at bottom. Th					
be finished with TW / white ceader lipping with natural polish and inside of the accesement shall be finished with enamel paint. The item is to be completed in all respect as per design, specification and approval of the Architect. 50.00 sq. ft. 16 Providing & King Rolling Shutters Encasement with 3mm thick (0.5mm + 2 mm + 0.5mm) ACP in approved colours all complete with approved aluminium brackets, silicon sealants, gaskets, PVDF coating in approved colour etc. all complete including bird/ vermin proof closer at the bottom and flashing at top, complete as per instructions & drawings. 50.00 sq. ft. 17 Providing & King writing ledge 900 mm. long x 300 mm. wide x 150 mm. deep, as per design made out of 19mm BWP block board with necessary groove patterns 1.0mm laminate. A divider made of 19mm block board to be provided. White beach / white ceader lipping with natural polish to be used in all exposed areas, inside of writing ledge to be enamel painted. Top of ledge will be of 12 mm. thk. float glass. The work to be completed as per design and approval of the architect. 1 unit 18 Providing a fixing vertical blinds of 100 mm wide (fMacAnnums) of approved shade and pattern having handail made of high strength alluminium alloyed will thickness of 1.2 mm thk handrail to have 25mm decrative insert. Control unit shall be of derlin. The runners are also to be a derlin withantifiction adelshive. Spacers should be made of stainless steel. Febric should be polyester viscosted globyester yaran having protective coating with chemicals for stain resistance & solirepalancy. The rate shall include necessary scoch gurd treatment on both sides. The overliaping should be uniform and adaquet. Nacessary operative arangements frames to b provided. The work to be completed a
